General Information & Service Provided:

- Senior Snow Removal Service is offered in accordance with **Codified Ordinance 1977-17.**
- Snow removal consists of a standard size (8 ft.) snowplow making two passes on the resident's primary driveway for the purpose of emergency entrance and egress (access and exit).
- This service is for snowplowing of one (1) driveway at the residence. For turnaround and horseshoe driveways, only the driveway area closest to the garage will be plowed.
- **SERVICE IS ACTIVATED WHEN SNOW ACCUMULATES 4 INCHES OR MORE** AND IT HAS STOPPED SNOWING, determined by the city. Once the contractors are notified, they have **16 hours** to complete their scheduled routes.
- Street addresses must be clearly displayed on the residence and must be visible from the street. All limbs, branches, and bushes hanging over the driveway must be trimmed back before service can be administered.
- After the snow season, the homeowner is responsible for repairing minor lawn damage caused by the plow.

Contractor Information:

- **THERE IS NO SET TIME WHEN THE CONTRACTOR WILL ARRIVE.** Immediate response to homeowner requests cannot be accommodated. If snow needs to be plowed at a specific time, the homeowner should obtain an additional contractor.
- **Contractors will only plow once each snowfall.** They will not return to clear drifts after snow has been plowed.
- Contractors will only plow up to and not next to vehicles in the driveway (to the best of their ability), and only up to two feet in front of garage doors. **They will not wait for vehicles to be moved.**
- **It is recommended that garage doors remain closed when the contractor is plowing.** Contractors are not responsible for plowing snow out from inside of a garage if it is left open.
- Contractors are not responsible for and will not remove ice build-up, compacted snow, or snow piles that have accumulated throughout the season. **They do not hand shovel or salt any area on the driveway.**
